Overwatch: Recalled

👁 77 ✓ 3 ★ 6

Chapter 1 by Robledo Thompson Taren

Overwatch is set in the near-future Earth, years after the resolution of the global-scale "Omnisc Crisis". This crisis put humanity under threat of the "Omnisc" artificial intelligence. This led to the uprising of robots all around the world and a massive conflict on the global scale. To end this conflict, an international task force called "Overwatch" was formed by the United Nations to protect humanity, ending the Crisis. In the years after, Overwatch remained as a peacekeeping force, but after multiple incidents of criminal activity popped up around the globe, accusations of corruption and sedition began to surface. The people turned against those who had saved them. Once regarded as heroes, members of Overwatch were then looked down upon with suspicion. Then one day, the headquarters of Overwatch were suddenly destroyed – apparently by accident. Officially, the attack took the life of Overwatch leader Jack Morrison and second-in-command Gabriel Reyes. After this event, the task force was eventually disbanded. It is believed by some that the cause of the downfall of Overwatch was due actually to an elaborate conspiracy by those who wanted to see the end of the organization, although nothing has been confirmed officially by the UN.

Chapter 4 by Ann M. Eggs

Torbjorn Lindholm awoke from his dreams of the past. In his younger days, that was very plausible, but now that Overwatch had been disbanded and he had settled down, Torbjorn had also given up his trade: weapon crafting. These days the government sent officer troops around to check for suspicious activity, and it would be a long, complicated process to explain to them why he had a private, 2100 sq ft forge containing hundreds of lethal (and probably illegal by now) weapons. In addition, he had more important things to spend his time on. While in Overwatch, Torbjorn had missed most of his daughter, Brigitte's, childhood. Even though he had been back for quite a long period of time now, he still had trouble talking to her. Whenever he entered a room in which Brigitte was already in, a tense silence would fall upon them. Torbjorn was afraid that his time without Brigitte had stretched on for too long, and that he and Brigitte would never become close like she and her mother were. Thinking about his perfect, happy family reminded Torbjorn of his place in Overwatch. They really had been a family. Torbjorn glanced at some framed pictures he had of the orginial team- Jack, Gabriel, Ana and her daughter Fareeha, McCree, Angela, his old buddy Reinhardt... Reinhardt almost seemed more like a father to Brigitte than Torbjorn. When Brigitte was little, Reinhardt would enrapture her in tales of conquest and victory in the Omnic Battles, telling her of the strong men who fought in the war. They didn't talk about the death, famine, and deprevation that plagued the world. It was a fragile topic, especially for Reinhardt, whose eyes would grow dark whenever someone

was to be strong like the mother. After the disbanding, McCree and Angela seeped into the hum of mediocre lives. Angela sent postcards to him and his family every once in a while, explaining how she was, but there was no word from McCree other than on the news, where 'Train is protected by Omnics but also robbed of valuable cargo. Main suspect is Jesse McCree'. Gabe had taught that boy well. Jack and Gabriel were perhaps the most painful for Torbjorn to remember. They were the ying and yang to each other, there for one another when times got rough. They had always said they were just friends, but everyone suspected more to it by the way Gabe described Jack when he was drunk, and by the way Jack blushed whenever Gabe entered the room. Obviously, love was blind. They too had gotten into an argument, but no one knew what it was. The details were filed as 'classified information' and subjected to the highest form of government security. After that, everything started falling apart, and Overwatch spiraled into oblivion. Torbjorn stared out of the bedroom window, filled with nostalgic memories of the past.
